## **Profile**

An experienced Pipefitter with a demonstrated history of working in the construction industry. Skilled in HVAC, Gas, Engineering, Oil & Gas, Plumbing and Inspection. I am a reliable hardworking and considerate person with a genuine interest in the requirements of others. I am a self-motivated individual, resourceful, organised, trustworthy and honest with a positive flexible attitude towards my work. I have a good timekeeping/attendance record, with the ability to work well as part of a team or on my own initiative. I am a good communicator with very good interpersonal skills; I have a good sense of humour, enjoy a challenge and would welcome the opportunity to make a positive contribution to my place of work. I also have a full clean drivers licence.

## **Key Skills**

- Able to carry out repetitive routines while maintaining concentration and accurately following specified procedures.
- Flexible attitude towards my work with the ability to work in different environments.
- Quick learner with the ability to adapt to different roles and changing environments.
- The ability to work in a fast changing and pressurised environment.
- An understanding of the importance and value of customer care.
- Able to prioritise and influence my daily workload to meet targets.

## **Qualifications**

- NVQ Level 2 in Heating and Ventilation (Industrial and Commercial)
- NVQ Level 3 in Heating and Ventilation (Industrial and Commercial)
- BTEC Level 3 in ICT Systems And Principles

## **Other Qualifications**

- Current in date Gold CSCS skill card
- IPAF 3a and 3b
- Pegler Yorkshire XPress card

## **Employment History**

### **January 2020 - Present     Pipefitter**

Since January I have been working for TruArc at HMP Holme House in Stockton. TruArc are subcontracted to NG Bailey. I have been working on the refurbishment and upgrade of the prisons plant rooms and boiler houses. This consists of stripping out old boilers, calorifiers, pumps, and associated pipework. Once stripped new plant is installed and new pipework fitted. I have worked on copper pipe from 6mm to 54mm, steel pipe from ½" to 2 ½". Using crimping, bolting and screwed pipe methods on cold water, hot water, potable water, heating and gas systems.

### **October 2019 - December 2019     Pipefitter**

I have been working on the new MRI scanner ward at Durham Hospital for Rolfe Contracting. Working with copper pipe in sizes from 15mm to 67mm. Working on chilled water, heating and cold and hot water systems. I have been working with drainage using 108mm soil pipe and 35mm and 42mm waste pipe. I have been fitting heater batteries in the ducting and fitting fan coil units.

### **May 2019 - October 2019     Pipefitter**

I have been working as a pipefitter for Ainscough Industrial Services through CDS RRecruitment. I have been at the Nissan Factory in Sunderland where I have been working along side other trades to disassemble, remove, relocate and reinstall robotic welding cells on the car production line. This has involved work with screwed galvanised steel pipe in sizes from 15mm to 67mm. I have also been involved with relocating the robots themselves including disconnecting and rewiring the power and controls for the robots.

### **February 2019 - May 2019     Pipefitter**

I have been working through Caval agency for Machenair as a Pipefitter. I have been completing the first fix and second fix on the new Jaguar Land Rover Showroom at Silverlink, Wallsend. Installing copper crimped pipework, water heaters, toilets, radiators, basins, showers. I also installed ambi-rads.

### **May 2018 - February 2019     Norstead Ltd. - Pipefitter**

I was employed by Norstead as a Pipefitter on a Retail Project in Greenwich, London on a new IKEA building. Boiler House and Plantroom installing heating and chilled mains in 108mm stainless steel crimped pipework. I also worked in the domestic plantroom installing the domestic feeds to building in a range of copper crimped pipework from 15mm to 76mm. During this time I worked on a range of different pipefitting including fusion welding, screwed pipe, solvent weld and crimped.

**April 2010 - May 2018     Pipefitter**

Site based pipe fitter installing pipe work systems on Industrial & Commercial projects throughout the UK. Having experience in; Heating, Chilled Water, Gas, Domestic, Public Health, Dairy Pipe-work, Steam and Condense, Boiler house and Plant room, Clean Rooms, Process Pipe work. Working with various pipefitting disciplines in a range of sizes including pipe threading, crimping and soldering.

**2003 - 2010                      Balfour Beatty Engineering Services - Pipe Fitter**

4 year apprenticeship learning all aspects of the trade that included achieving the NVQ at Level 2 and 3 in Commercial Heating and Ventilation and working as a qualified pipe fitter since the completion of my apprenticeship. During this time I installed both commercial and domestic heating and plumbing pipe work systems.
